

FINISH 2016 STRONG!

2016 was off to a great start with the preparations for the opening of our newest site. OUE Skyspace at the US Bank Tower in downtown L.A. opened its doors to the public late June of 2016. With the opening during peak operating times at our existing sites, this was a challenge

Jesse Covarrubias

we had to quickly overcome. Leadership is imperative in times that call for all hands on deck, from every angle and one of our team members took the initiative to ensure everything was successful. For that reason we would like to recognize Jesse Covarrubias as our exceptional bi-annual team member.

Jesse played an integral role in the successful setup of OUE Skyspace. He wore many hats from the training of Managers, Supervisors and Imaging Sales Associates, to ensuring the quality of the day-to-day operations once the site opened. All of these things were tackled as he managed to keep his home site running smoothly at the Hoover Dam.

Throughout Jesse's 6 years at Hot Shots Imaging he has taken the lead on creating Hot Shots University Advanced Training, which is our new Manager training program, he has been a major asset in all of our new site openings, and he continues to set the bar for all of our Site Managers. Thanks to Jesse's leadership skills, he has led his team to achieve record sales over the first two quarters of 2016! Keep up the great work, Jesse!

WHY TAKE THE STAIRS WHEN THERE IS A PERFECTLY GOOD GLASS SLIDE OUTSIDE!?

Hot Shots Imaging has acquired its newest site in downtown Los Angeles at the U.S. Bank Tower/ OUE Skyspace. Aside from the breathtaking views of the open air observation deck, it is also the home of the first outdoor glass slide that allows the guest to glide outside of the building from the 70th to the 69th floor.

The fully enclosed slide is made of 1.25-in thick clear glass. It clings to the side of the tower 1,000 ft. above the ground and stretches diagonally down for 45 ft. from level 70 to level 69. Weighing in at 7,000 lb., it was airlifted onto the 69th floor observation deck via helicopter, before being hoisted into place and installed.

Guillermo from *Jimmy Kimmel Live* was among one of the first to brave the slide.

Good luck to David and Team!

We are also excited to announce our expansion to the South Florida area, with Jet Boat Miami! We have incorporated our Barracuda video system on all of the Jetboats to capture still photography

and video as your adrenaline flows through the territory of the San Marco Islands and Memorial Island to view the homes of the rich and famous!
